Wholesale and Retail

Terms and Conditions

Terms.—*Cash before shipment*, unless special agreement has been made for other terms of payment, or previous credit has been established with us. *No deviations from this rule.* Digging, packing, and boxes free on all orders accompanied with remittance in full.

Shipping Seasons.—In spring our shipping season varies some, but generally begins about April 1st and continues to June 1st. Some varieties of evergreens may be safely shipped as late as June 15th. We ship evergreens from Aug. 15th to Oct. 15th, besides in spring. Deciduous trees from Oct. 15th to Nov. 15th and again in spring. All stock is dug fresh just before shipment, and packed in best quality live Sphagnum moss. Some seasons we can commence digging trees as early as March 15th.

Our Responsibility for delivery ceases when delivery is made by us to transportation company. We guarantee stock to be full count and true to name and in healthy, growing condition when delivered to transportation company. This guarantee, however shall in no case make us liable for more than the original invoice value of the stock. Under no circumstances will goods be shipped subject to approval or rejection on arrival.

Shipments to points on railroads where there is no station agent must be prepaid and in such cases the amount of freight must therefore be included, and so stated in the remittance for order.

Shipping Directions.—State distinctly whether you want the goods sent by freight or express, and tell us what railroad to ship by if you have a preference. Write your name *plainly*—and give name of freight or express office if different from postoffice.

Packing Free except on less than car lots of large trees for Park or Street Planting, when cash is received with the order; otherwise we make a charge to cover the cost of packing and boxes.

Special Prices given on very large orders. 50 of any one variety and size sold at 100 rates, and 500 of any one variety and size at 1,000 rates. No order accepted for less than one dollar.

Please do not order 12 in. trees at the price of 8 to 12 in., nor 18 in. trees at the price of 12 to 18 in. Price of 12 in. trees will be midway between that of 8 to 12 in. and 12 to 18 in., and the same rule will apply in all cases where one exact size is ordered at variance with the sizes given in this list.

Our Illustrations. We would impress upon the readers of this little catalogue and price list the fact that each and every illustration therein shows trees that were bought from us, and that the printing plates are made direct from photographs taken expressly for us, either by or under direction of the owner of the grounds. There is positively no deception about any of our illustrations.

Each fall we collect large quantities of Evergreen tree seeds from the native forests of the north and northwest, clean them up ourselves, and therefore can guarantee to those wanting fresh and pure tree seeds, the best to be had. Our list of tree seeds is usually issued late in the Fall of each year.

Millions of trees are now being planted every year for Forestry purposes, and the planters for such purposes usually buy in very large quantities. To these we will say that it will be a pleasure to us to quote them special prices on their requirements, provided their needs can be supplied from the varieties that we raise and offer for sale.

**Clean Certificate of Inspection Accompanies
Every Shipment.**

THE above illustration is from photographic view of home grounds of Elijah Bowman, Michigan. The Hedge and three trimmed specimens are Am. Arbor Vitæ, and were all grown to the condition shown, in ten years, from 4 to 8 inch plants. May be trimmed into innumerable fantastic shapes.

Evergreens.

HERE is a 350 ft. hedge made from 200 of our Am. A. Vitæ. It is 4 ft. high, trimmed square. The trees for the hedge and the Nor. Spruce in center were bought of us by the owner, A. Anderson, Wis., who writes us: "In setting out I did not lose one tree. If there is a finer hedge in Columbia county, I do not know where it is."

TO OUR FRIENDS AND CUSTOMERS.

It is with pleasure that we hand you here now our forty-fourth annual price list of standard varieties of Evergreen and Deciduous trees. Some of you who will receive this list have been our customers every year during all these forty-four years, and we are indeed grateful for this unquestionable evidence that the quality of the stock sent out by us is satisfactory. We could present a long list of complimentary letters attesting to this fact, and although we have from time to time printed in our catalogue a few such testimonials, it does not longer seem necessary, our nursery now being so well and favorably known in this and foreign lands.

We grow immense quantities of Evergreens from seeds, and in some of the standard varieties are prepared to furnish from our own nursery beds, small seedlings in very large quantities, even to millions, and earnestly solicit correspondence from parties who are prospective purchasers of standard Evergreens in larger quantities than are quoted in this brief price list.

Evergreen Nursery Co.,
Sturgeon Bay, Wis.

Devils Lake, N. D., May 18, 1908.

Gentlemen:—Enclosed I hand you my check for White Birch and Mountain Ash seedlings. They are excellent stock. If I knew they were so good, I would have gladly doubled the order for them.

JOHN W. MAHER.

Upper Falls, Sherwood Forest, Md., June 13, 1908.

Gentlemen:—The little trees came very quickly and in fine condition. The leaves on the ash are four inches long and are growing finely. My birch is six feet, and a beauty.

HATTIE REYNOLDS.

Benson, Minn., March 25, 1908.

Dear Sirs:—I herewith accept your special offer for Arbor Vitae. About ten years ago I ordered a hedge from you, every plant of which is still alive.

C. L. SCOFIELD.

Alma, Mo., May 8, 1908.

Dear Sirs:—I received the trees in fine condition. They were large and healthy and well packed. I am so well pleased that I want more next fall.

HENRY BOCK.

Alliance, Ohio, March 2, 1908.

Dear Sirs: The trees I purchased of you 7 years ago have grown to exceed my expectations. Only lost about 10 in all.

CHAS. J. ZURBOUGG.

Lynxville, Wis., April 10, 1908.

Dear Sirs:—You are the only concern that I have dealt with that has sent out evergreens that live and grow.

J. H. TICHENOR.

Bridgeville, Del., March 16th, 1908.

Dear Sirs:—The last order sent you has done remarkably well, it is now a beautiful hedge.

ROBERT HILL.
